

Danu Cafe Website Project: UI

1. Introduction

This is the website for Danu, a (imaginary) Irish-themed cafe/restaurant, which also serves as a community hub and hosts cultural events.

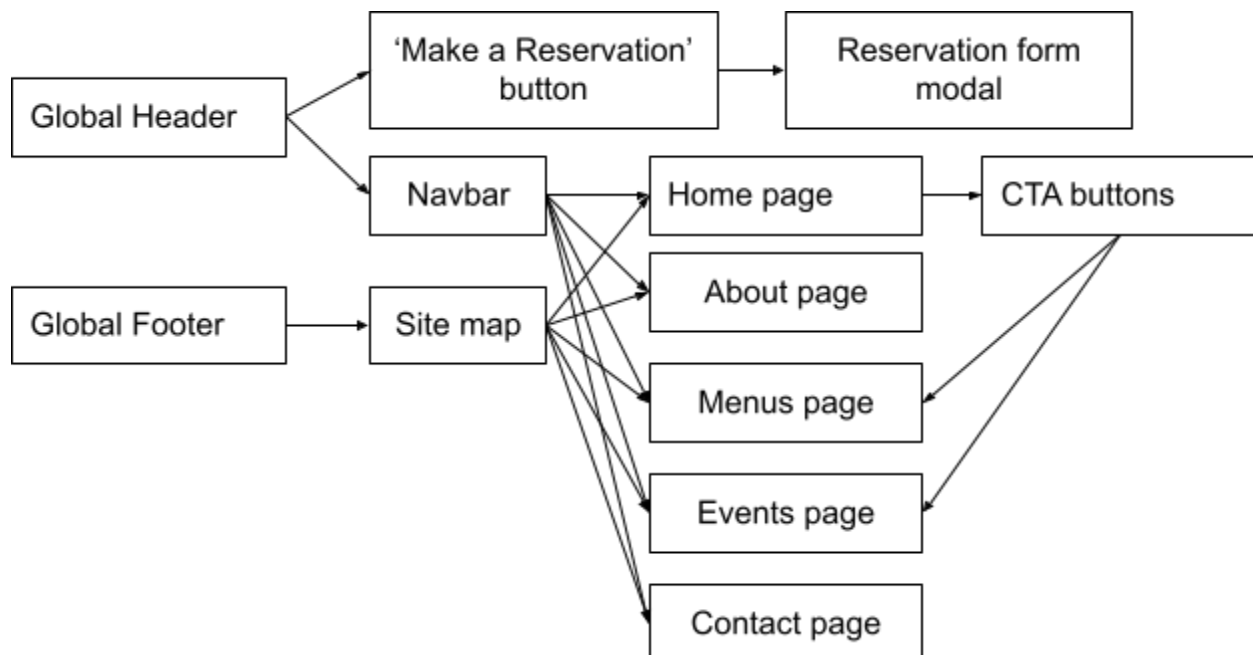

The website features business information, menus, an event calendar, reservation form and contact form.

2. User Interface Design and Prototype

The user interface features:

- 'Make a Reservation' button in header which triggers modal form
- Simple horizontal navbar for navigation between pages
- Attractive photography at top of page
- Welcome section on home page to convey business concept
- Featured event cards on homepage
- Call-to-Action buttons on home page
- Footer with contact info, site map and social links

3. Navigation Structure
